Objective

Data Science Enthusiast with strong foundations in Python, SQL, Statistics, and Machine Learning. Skilled in analyzing data, building insights through Power BI, and eager to apply analytical skills to solve real-world business problems.

Education

Modern College Of Art, Science And Commerce

Bachelor of Computer Application, CGPA – 8.5

Pune

2020–2023

Savitribai Phule Pune University

Masters of Science, CGPA – Pursuing

Pune

2024–2026

Projects

Global Superstore Analysis: • Tools: MS SQL

• Analyzed sales data from a fictional global retail company to identify sales trends, customer behavior, and product performance. Insights extracted on geographical variations and recommendations for business optimization.

Employee Dataset Dashboard: • Tools: MS Excel, Power BI.

• Developed interactive dashboards to analyze employee attrition, satisfaction, productivity, and engagement. Identified key factors impacting workforce performance using visualizations and data analysis techniques.

Health Insurance Cost Prediction: • Tools: Python, Jupyter Notebook, Pandas, Seaborn, Scikit-learn.

• Performed exploratory data analysis (EDA) on a health insurance dataset to identify key cost-driving factors such as age, BMI, and smoking habits.

• Built and evaluated machine learning models (Linear Regression, Random Forest) to accurately predict medical insurance charges.

• Extracted actionable insights to understand how lifestyle factors impact healthcare costs, which can aid in risk assessment and personalized premium setting.

Skills

Programming: Python, SQL

Data Analysis and Visualization: Machine Learning, Power BI

Library: Numpy, Matplotlib, Seaborn,

Tools: Jupyter Notebook, Google Colab, Excel

Soft Skills

Team Player, Quick Learner

Explorer, Good Communicator

Courses

Data Science Professional Certificate: Completed Six Month Bootcamp By OdinSchool.

Interests

Sports: Playing cricket in my free time.

Books: Reading Non-Fictional Books

Podcast: Listening to knowledgeable podcast
