Summary

Motivated and detail-oriented Computer Science graduate with hands-on experience in data analysis, SQL querying, and dashboard development. Skilled in Python, data preprocessing, and exploratory data analysis (EDA) to extract actionable insights. Strong problem-solving abilities with experience working in collaborative environments. Eager to leverage analytical skills to drive data-driven decision-making.

Education

B.Sc. in Computer Science

Savitribai Phule Pune University, Maharashtra

Graduated: 2024

CGPA: 8.24 / 10

Technical Skills

Programming: Python, C, Java, SQL

Data Analysis & ML: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn

Databases: MySQL, Relational Database Design, SQL Queries

Web Technologies: HTML, CSS, PHP

Core Concepts: OOP, Data Structures and Algorithms

Tools: Jupyter Notebook, VS Code, Power BI, Excel, Git

Experience

Data Analyst Intern

Chromatus Consultancy

Feb 2025 – July 2025

Pune, Maharashtra

- Cleaned and preprocessed datasets (5,000+ records) to improve reporting accuracy.
- Performed exploratory data analysis (EDA) to identify trends and actionable insights.
- Developed interactive dashboards using Excel and Power BI to track KPIs and performance metrics.
- Wrote optimized SQL queries to extract and analyze structured data from relational databases.
- Collaborated with cross-functional teams to translate business requirements into analytical solutions.

Projects

Property Management System | *HTML, CSS, PHP, MySQL*

Jan 2024

- Designed and developed a responsive web interface for property and tenant management.
- Designed relational database schema for properties, tenants, leases, and payments.
- Integrated rent payment tracking and automated overdue notifications.
- Implemented user authentication and role-based access (Admin, Tenant).

Customer Churn Analysis and Retention Insights | *Python, SQL, Scikit-learn*

2025

- Conducted EDA to analyze customer demographics, usage patterns, and subscription behavior.
- Identified key factors contributing to churn using correlation and feature importance analysis.
- Built a Logistic Regression model to predict high-risk customers.
- Evaluated model performance using accuracy, precision, recall, and confusion matrix.

Certifications

- **Artificial Intelligence Technook (July 2024):** Training in Machine Learning, Deep Learning fundamentals, and AI model development with hands-on implementation using Python.
- **OpenAI GPT-3 for Developers Infosys Springboard (June 2025):** Learned prompt engineering, API integration, and development of AI-powered applications including chatbots and text generation tools.
